**Hazoor Multi Projects Ltd. Venturing into Renewable Energy with Maharashtra's
Green Energy Future and First-of-Its-Kind Solar Park**

Mumbai (Maharashtra) [India], January 27, 2025:

Hazoor Multi Projects Ltd. (HMPL) is pleased to announce its foray into the green energy revolution in India with the development of the Chhatrapati Shivaji Maharaj Saur Urja Park (CSMSUP), Maharashtra's first solar park. This landmark initiative is being developed in collaboration with a leading multinational company from the United Kingdom and is poised to play a transformative role in the state's renewable energy landscape.

The ambitious 1.2 GW capacity solar park will be located across 4,200 acres in Solapur district. Equipped with state-of-the-art technology, each solar panel at the park will feature an impressive 750-watt capacity, ensuring exceptional efficiency. The park will incorporate both fixed and tracking solar panels, with the tracking systems designed to follow the sun's movement throughout the day to maximize energy generation.

Once operational, CSMSUP will make a substantial contribution to India's renewable energy goals, aiding the country in its ambitious green energy transition while significantly reducing its carbon footprint. This initiative goes beyond environmental benefits, driving economic growth and generating new job opportunities in the Solapur region, reinforcing HMPL's commitment to fostering sustainable development.

Robert Moses, Director of Hazoor Multi Projects Ltd., commented on the project: "The development of Chhatrapati Shivaji Maharaj Saur Urja Park marks a significant milestone in HMPL's journey in India. This project highlights our commitment to transforming India into a global leader in renewable energy. We are eager to expand our renewable power generation capacity and are excited to open more facilities across the country in the coming years."

India's achievements in the renewable energy sector have set an inspiring example for other emerging economies, proving that sustainable development can thrive alongside economic progress. As a symbol of India's leadership in combating climate change, CSMSUP serves as an invitation to global businesses and investors to join this green revolution and contribute to building a low-carbon future, while supporting the growth of India's renewable energy sector.

In addition to CSMSUP, HMPL is also planning solar hybrid projects in collaboration with international partners in two other states: Maharashtra (1,200 MW) and Andhra Pradesh (500 MW). These projects reinforce HMPL's dedication to driving innovation and advancing sustainability in India's renewable energy space.

About Hazoor Multi Projects Ltd. (HMPL):

Hazoor Multi Projects Ltd. is a leading player in the Indian infrastructure sector, specializing in a diverse range of projects including road construction, bridges, flyovers, and other civil engineering works. With a strong commitment to quality, safety, and timely delivery, Hazoor Multi Projects has established a solid reputation for excellence in the industry. The company boasts a skilled workforce and a robust infrastructure, enabling it to undertake challenging projects of varying scales and complexities. Hazoor Multi Projects is dedicated to contributing to the nation's growth by developing vital infrastructure that supports economic progress and enhances connectivity.

The company's scrips are listed on the Bombay Stock Exchange (BSE) under Scrip Code [532467] and ISIN [INE550F01049].
